[THE LATEST GADGETS, TRENDS AND APPS]

Give your home an easy lighting upgrade with affordable smart bulbs and an easy-to-use app

One of the most important features of any home is lighting – mood, task, overhead – and it's definitely not 'one size fits all'. It can set the design tone and impact how you live, but you don't need to spend big bucks on an electrician to light your place right – use the Connect Smart Lighting Range. From downlights and strip lights to everyday bulbs in a choice of soft whites or RGB colours, you can use them to create ambience in your home. And, at just \$10, the Smart White LED Light Bulbs are a budget-friendly way to make your home smarter. Using the Connect SmartHome app on any

compatible device – or voice commands and virtual assistants – you can dim, schedule or switch them on/off. It's a smart home for less.

▲ To control your home's lighting with a free app, go to connectsmarthome.com.au.

WORDS OF WISDOM

“TECHNOLOGY IS A WORD THAT DESCRIBES SOMETHING THAT **DOESN'T WORK YET**”

DOUGLAS ADAMS, WRITER

TWO IN ONE!

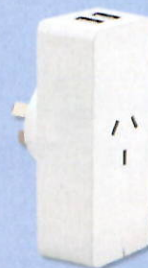

Save space with these nifty double-duty tech helpers

PICTURE IT

Wireless charging is great, and the PowerPic, \$99.95, is a game changer!

The black or white timber frame conceals a 10W wireless charger behind the photo. Just pop your smartphone (in a case up to 3mm thick) against the photo to juice it up, twelvesouth.com.au/products/powerpic.

POWER IT

Make your power points work smarter with the Connect Smart Wi-Fi Plug with Dual USB Charging Port, \$19, from Harvey Norman. With short-circuit and surge protection, you can confidently control your plugged-in device or appliance while you're away from home, harveynorman.com.au. ■
